1994 dodge dakota truck won't start Truck cranks won't start, changed the starter, engine control module, coil, switch plate assembly, battery. The truck still won't start [not getting fire to the coil or fuel pump

SOLVED: 1994 dodge dakota truck won't start - Fixya

The fuel pump regulates the amount of fuel that makes it to your Dodge Dakota engine. When the fuel pump starts to fail, it will send too little fuel to the engine, causing it to stall. This problem could leave you stranded, so it is important that you change the fuel pump at the first sign of any trouble. Replacing a Dodge fuel pump is not hard to do, and you can save money by doing it ...
