Strategus is a genus of rhinoceros beetles belonging to the family Scarabaeidae. The genus is widespread in America from Kansas to South America. Description. Species within this genus can reach a length of 30–45 millimetres (1.2–1.8 in). These large beetles have a more or less cylindrical body.

Strategus (beetle) - Wikipedia

Strategus aloeus. (Linnaeus, 1758) *Strategus aloeus*, the ox beetle, is a species of rhinoceros beetle. The "major" males of this species have three large horns on their thoraces, resembling the Triceratops. The "minor" males have horns, as well, but the two back ones are small and the frontal horn is much shorter than the horn in major males.
