When you open a database, the ribbon appears at the top of the main Access window, where it displays the commands in the active command tab. The ribbon contains a series of command tabs that contain commands. In Access, the main command tabs are File, Home, Create, External Data, and Database Tools. Each tab contains groups of related commands, and these groups surface some of the additional new UI elements, such as the gallery, which is a new type of control that presents choices visually.

Creating Forms in Microsoft Access 2010 - ThoughtCo

Remarks. You can use the Like operator to find values in a field that match the pattern you specify. For pattern, you can specify the complete value (for example, Like "Smith"), or you can use wildcard characters to find a range of values (for example, Like "Sm*").. In an expression, you can use the Like operator to compare a field value to a string expression.
