An engineering drawing is a type of technical drawing that is used to convey information about an object. A common use is to specify the geometry necessary for the construction of a component and is called a detail drawing. Usually, a number of drawings are necessary to completely specify even a simple component. The drawings are linked together by a master drawing or assembly drawing which gives the drawing numbers of the subsequent detailed components, quantities required, construction materia

Engineering drawing - Wikipedia

Engineering, Graphics & Design was created from Technical Drawing and is aimed at Engineering and Architecture. Its concepts are modern and relevant compared to the “ Old Technical Drawing ” syllabus. Isometric and Orthographic Projection is the basis of subject and 2D and 3D drawings is vital for the visualisation of drawings and manufacturing of concepts.
